ABOUT ME

Visual and web designer with 8+ years creating identities, websites and digital products. I take projects from the initial idea and visual system through interface design, implementation and documentation. I combine UX/UI, WordPress, content and AI to solve specific problems with visual judgement, autonomy and measurable results.

PROFESSIONAL EXPERIENCE

2022 - 2024 **WEB & DIGITAL PRODUCT DESIGNER**
Proclade Colven ONGD / Medellín - Colombia

Designed and developed 2 institutional websites in WordPress and Elementor, improving user experience with responsive interfaces and a consistent visual system for the organisation.

Created templates that enabled the team to publish news and projects without technical support, reducing content update and management time by approximately 50%.

Produced graphics, photography and video for digital campaigns, expanding online reach and strengthening the organisation's communications.

2024 - 2026 **DIGITAL CONTENT & AI STRATEGIST**
Own and client projects ·
Digital product and content

I run a YouTube channel built from scratch: 3.6M+ total views, 7.2K subscribers and one video with over 3M views; the channel is monetised.

I manage content and community for a wellness brand, with 30K+ followers on Instagram and an active community of more than 200 people on WhatsApp.

I design custom tools for prospecting, Etsy and YouTube research, and content generation with AI workflows, PDF reports and data persistence.

I combine branding, SEO, content and applied AI to convert audiences into clients and reduce production time.
Projects: Elum Tarot · El Fisio Chavarría · Prospecta · Nicho and Nicho Radar.

2017- 2026 **CREATIVE DESIGNER (FREELANCE)**

Delivered 60+ graphic design and visual communication projects for clients across sectors, from one-off pieces to complete brand identities.

Developed visual systems, editorial materials and mockups, print advertising and digital content, taking each project from concept to final delivery.

Produced and edited promotional videos and audiovisual content with Adobe Premiere, CapCut and AI tools, improving production speed and visual consistency for digital campaigns and social media.
